Two that catch people out

St. Lucia has two airports. Hewanorra (UVF) takes the international flights but sits at the far south of the island, roughly 90 minutes from Castries. George F. L. Charles (SLU) is right by the capital but handles regional flights only.

Costa Maya, Mexico has no airport of its own. The nearest is Chetumal (CTM), and most travellers reach it via Cancun (CUN) instead.

Flying in to meet a ship? Always arrive at least one full day early. A single delayed flight can cost you the whole cruise, and the ship will not wait. This is the one piece of advice Katie will not budge on.

Questions about any of this? Ask Katie - it costs nothing, and she would rather answer it now than have you find out at the pier. cruisingwithkatief@gmail.com
